

In the field of Accelerator physics

a Nobel Prize in Physics 1939 was awarded to
Ernest Orlando Lawrence

"for the invention and development of the cyclotron and for results obtained with it,
especially with regard to artificial radioactive elements"

I from Subliminet and the Theory of Omniphysics
should be awarded a Nobel Prize

"for the invention and development of the technique of motion and movement for
extended durations of Time and Timelessness and the environment within which
the technique may be constantly and continuously practiced uninterruptedly
thereby accelerating the vibrational frequencies of ALL quantized systems of energy
in flow throughout within
the Omneronaut".

A Nobel Prize in Physics 1951 was awarded to
Sir John Douglas Cockcroft
and

Ernest Thomas Sinton Walton

"for their pioneer work on the transmutation of atomic nuclei
by artificially accelerated atomic particles"

I from Subliminet and the Theory of Omniphysics
should be awarded a Nobel Prize

"for the invention and development of the technique of motion and movement for
extended durations of Time and Timelessness and the environment within which
the technique may be constantly and continuously practiced uninterruptedly thereby
accelerating the vibrational frequencies of ALL quantized systems of energy in flow
throughout within the Omneronaut

so that the Omneronaut may be wholly transformed into a quasi-Plasmanoid
capable of directly entering into the dimension of Timelessness
and directly metaphysically experiencing
the omnipresent, fundamentally unconscious awareness of
the infinitely dense vacuum energy of Space."

In the field of Applied electromagnetism

a Nobel Prize in Physics 1909

Guglielmo Marconi

Karl Ferdinand Braun

"in recognition of their contributions to the development of wireless telegraphy"

I from Subliminet and the Theory of Omniphysics

should be awarded a Nobel Prize

“in recognition of their contributions to the development of
a technique of motion and movement enactable for extended durations of Time and
Timelessness and the environment within which the technique may be
constantly and continuously practiced uninterruptedly
thereby accelerating the vibrational frequencies of ALL quantized systems of energy
in flow throughout within the Omneronaut
including the electromagnetic field dualistically manifested within the Omneronaut
so that the Omneronaut may directly metaphysically interact with
the omnipresent, fundamentally unconsciously aware
infinitely dense vacuum energy field of Space,
thereby allowing the Omneronaut the capability to
subjectively master and control systems of energy in flow
in ways never before imagined possible.”

~~~~~

In the field of Astrophysics

a Nobel Prize in Physics 1936 was awarded to

Victor Franz Hess

"for his discovery of cosmic radiation"

I from Subliminet and the Theory of Omniphysics

should be awarded a Nobel Prize

“for the discovery of the omnipresent dimensionless field within which  
all dimensions and fields manifest, occur, reside, exist,  
including cosmic radiation,  
the non-temporal, non-spatial, omnipresent dimensionless,  
metaphysically manifested field of Timelessness”

A Nobel Prize in Physics 1967 was awarded to

Hans Albrecht Bethe  
"for his contributions to the theory of nuclear reactions,  
especially his discoveries concerning the energy production in stars"

I from Subliminet and the Theory of Omniphysics  
should be awarded a Nobel Prize  
"for their contributions to the theory of fundamentally sentient nuclear interactions,  
especially discoveries concerning the mastered and controlled kinetic energy  
production within  
an Omneronaut"

A Nobel Prize in Physics 1974 was awarded to  
Martin Ryle

"for his pioneering research in radio astrophysics:  
and for his observations and inventions,  
in particular of the aperture synthesis technique,

I from Subliminet and the Theory of Omniphysics  
should be awarded a Nobel Prize  
"for their pioneering research in metaphysical information creation and  
interaction,"  
in particular metaphysically manifested information metaphysically experienced  
while safely and successfully practicing  
the unique, U.S. Copyright protected technique  
for extended durations of both Time and Timelessness  
while within the unique, U.S. Copyright protected environment."

The Nobel Prize in Physics 1978

Arno Allan Penzias

Robert Woodrow Wilson

"for their discovery of cosmic microwave background radiation"

I from Subliminet and the Theory of Omniphysics  
should be awarded a Nobel Prize  
"for the discovery of the omnipresent dimensionless field within which  
all dimensions and fields manifest, occur, reside, exist,  
including cosmic radiation,  
the non-temporal, non-spatial, omnipresent dimensionless,  
metaphysically manifested field of Timelessness

A Nobel Prize in Physics 1983 was awarded to

Subramanyan Chandrasekhar

"for his theoretical studies of the physical processes of importance to

the structure and evolution of the stars"

I from Subliminet and the Theory of Omniphysics  
should be awarded a Nobel Prize  
"for their theoretical studies of the physical  
and metaphysical processes and occurrences  
of importance to the structure and evolution of the stars"

A Nobel Prize in Physics 1983 was awarded to  
William Alfred Fowler  
"for his theoretical and experimental studies of  
the nuclear reactions of importance in the formation of  
the chemical elements in the universe"

I from Subliminet and the Theory of Omniphysics  
should be awarded a Nobel Prize  
"for their theoretical and experimental studies of  
the nuclear reactions and metaphysical interactions of importance in  
the formation of the chemical elements in the universe"

A Nobel Prize in Physics 1993 was awarded to  
Russell A. Hulse  
and a Nobel Prize in Physics 1993 was awarded to  
Joseph H. Taylor Jr.  
"for the discovery of a new type of pulsar,  
a discovery that has opened up new possibilities for the study of gravitation"

I from Subliminet and the Theory of Omniphysics  
should be awarded a Nobel Prize  
"for the discovery of a new type of motion and movement technique,  
a technique practiced for mastering and controlling energy in flow,  
in ways never before imagined possible,  
a discovery that has also opened up new possibilities for the study of gravitation"

The Nobel Prize in Physics 2006  
John C. Mather  
George F. Smoot  
"for their discovery of the blackbody form  
and anisotropy of the cosmic microwave background radiation"

I from Subliminet and the Theory of Omniphysics  
should be awarded a Nobel Prize  
"for their discovery of a technique of motion and movement

capable of transforming a practicing Omneronaut into a quasi-Plasmanoid  
and for the discovery of the omnipresent non-temporal, non-spatial, dimensionless  
field within which the cosmic microwave background manifests, occurs, resides,  
exists”

In the field of Atomic physics

a Nobel Prize in Physics 1902 was awarded to  
Hendrik Antoon Lorentz and to  
Pieter Zeeman

"in recognition of the extraordinary service they rendered by their researches into  
the influence of magnetism upon radiation phenomena"

I from Subliminet and the Theory of Omniphysics  
should be awarded a Nobel Prize

"in recognition of the extraordinary service they rendered by their researches into  
the influence of uniquely choreographed motions and movements  
upon electromagnetism and electromagnetic radiation within an Omneronuat  
while safely and successfully enacting the technique  
for extended durations of both Time and Timelessness. "

A Nobel Prize in Physics 1906 was awarded to  
Joseph John Thomson

"in recognition of the great merits of his theoretical and experimental investigations  
on  
the conduction of electricity by gases"

I from Subliminet and the Theory of Omniphysics  
should be awarded a Nobel Prize

"in recognition of the great merits of their investigations on  
the conduction of electrons throughout an Omneronaut and a quasi-Plasmanoid"

A Nobel Prize in Physics 1917 was awarded to  
Charles Glover Barkla

"for his discovery of the characteristic Röntgen radiation of the elements"

I from Subliminet and the Theory of Omniphysics  
should be awarded a Nobel Prize  
"for their discovery of the weakly produced characteristic  
Röntgen radiation of the elements within an Omneronaut"

A Nobel Prize in Physics 1925 was awarded to  
James Franck and to  
Gustav Ludwig Hertz  
"for their discovery of the laws governing the impact of an electron upon an atom"

I from Subliminet and the Theory of Omniphysics  
should be awarded a Nobel Prize  
"for their discovery that the laws governing the impact of an electron upon an atom  
within an Omneronaut  
transforms the Omneonaut into a quasi-Plasmanoid"
